# About us

MANTZ airmotions – We are experts when it comes to developing and producing room fragrances for your well-being and household air fresheners for the private label.

As a B2B supplier, we develop and create room fragrance concepts for our customers' private labels. Each of our products is carefully supervised by us from the initial idea to the production – with care and a passion. We look forward to captivating you and your customers with our room fragrance ideas.

# Sustainability

MANTZ airmotions passionately develops products that provide people with wonderful aromatic moments in their everyday lives. Our vision: providing as many people as possible with a pleasant feel-good atmosphere created by fragrances –  
Luxury for everyone!

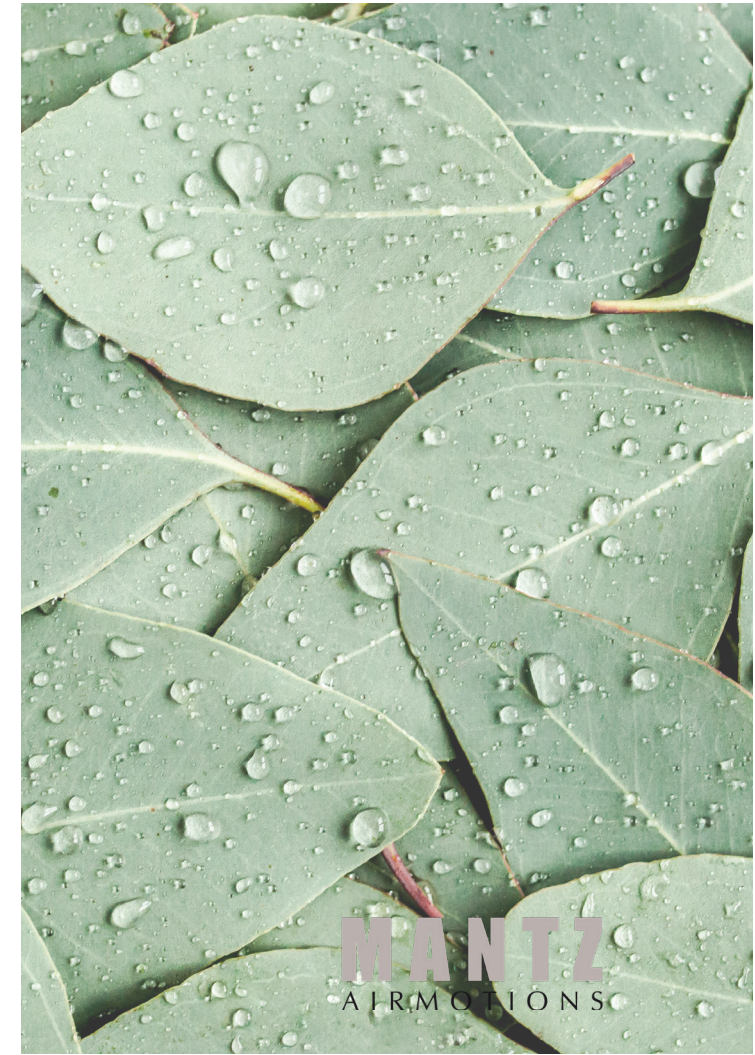

We also believe that as a manufacturer of consumer goods, it is our responsibility to control and restrict a negative impact of our products on the environment. We are a company that is **certified according to ISO 14001** so that we have already had an **environment management system** in place for a number of years that supports us as a producer when it comes **to minimising negative impacts on the environment**.

Last but not least, we at MANTZ airmotions are able **to succeed in this due to an ongoing further development of our products, a minimising of CO<sub>2</sub>-emissions and an endeavouring to cooperate with certified suppliers.**

So that not only do the people have a feeling of well-being with our products in their homes, but they also feel good.

Our products catalogue is now only available in a digital form so that we can save paper.

**MANTZ**  
AIRMOTIONS

# Decorative Room Fragrances

With our decorative room fragrances, we want to create moments of well-being for people in their homes.

We produce our room fragrances with sticks in the EU and therefore contribute to a reduced CO<sub>2</sub>-emission as a result of short procurement routes.

**SAM**

glass flacon,  
90 ml

**SAM**

glass flacon,  
120 ml

**SAM**

glass flacon  
200 ml

The **SAM** glass flacon is an evergreen among our room fragrances.

The **syrup form** of the flacon enables it to be put to diverse uses and it can also be customised by applying various refinements such as a **sleeve**, a **decorative label**, or a **coloured lacquering**.

Room Fragrance  
with Sticks

**WALLY**

glass flacon,  
125 ml

**WALLY**

glass flacon,  
200 ml

The **WALLY** glass flacon is extremely popular. The **veral form of the bottle** has been convincing across all trend eras and has now benefitted from a repeat upturn in the form of the loft and pharmacy trend in brown glass.

The bulbous form provides space for various customisations, especially **sleeves** and **decorative labels**.

Room Fragrance  
with Sticks

**MANTZ**  
AIRMOTIONS

### CURTIS

glass flacon,  
100 ml

### CURTIS

glass flacon,  
50 ml

The trendy **cube form** is embodied by our CURTIS. It is unpretentious and appeals to both males and females.

The MANTZ airmotions **AQUA COLOR 2-phase** recipe especially comes into its own in this flacon form. A noble **decorative label** is also a good choice for this flacon form.

Room Fragrance  
with Sticks

**MANTZ**  
AIRMOTIONS

### KEAN

glass flacon,  
100 ml

### NOAH

glass flacon,  
50 ml

### VIN

glass flacon,  
90 ml

Even if **KEAN**, **NOAH**, and **VIN** have a similar cylindrical form, they nevertheless look different last but not least due to the different decorative caps.

The **cylindrical** trend form is unpretentious and is able to discretely integrate with various interior designs.

The flacon can be beautifully refined with an **all-round label** or **coloured lacquering**.

**MANTZ**  
AIRMOTIONS

Room Fragrance  
with Sticks

### RUBY

glass flacon,  
90 ml

### NERO

glass flacon,  
75 ml

### MILO

glass flacon,  
90 ml

**RUBY** – the unpretentious flacon **with its wide shoulders** has only been in our portfolio since 2021 and addresses the trend towards shoulder-shaped vases. Those who are looking for something more unusual are certain to go for our two eye-catchers **MILO** and **NERO**.

Our **AQUA COLOR 2-phase** recipe especially comes into its own in the **NERO** flacon.

Room Fragrance  
with Sticks

#### ALL-ROUND LABEL

transparent printed foil

#### ALL-ROUND LABEL

crystal optic/ haptic  
with clear or colored  
liquid

We are **able to offer you various forms** of refinement  
for our glass flacons:

refinement

- printed all-round or decorative labels
- sleeves
- full-surface colour-lacquered glass
- glass printed with a motif
- stained fluid
- trendy brown glass.

We would be pleased to support you with the development  
of a concept that shall captivate your customers.

#### DECORATIVE LABEL

transparent printed foil

The label and the glass flacon  
can be disposed of separately  
as the labels can be removed from  
the glass.

Room Fragrance  
with Sticks

**MANTZ**  
AIRMOTIONS

The sleeve can also be provided with a perforation on request so that it and the glass flacon can be disposed of separately.

#### WALLY

Glass flacon with sleeve

#### WALLY

Glass flacon with sleeve

You want to captivate your customers with **seasonal campaigns**? Then our **sleeves** provide you with the best possibility of refining the flacons with customised designs.

Whether travel destinations in the summer, hyggelig moments in the winter, Easter, Mother's Day, Valentine's Day – there are an incredible number of occasions.

Let yourself be inspired...

### AQUA COLOR

2-phase recipe

### AQUA COLOR

2-phase recipe

### AQUA COLOR

fully stained fluid

The fragrance can be underlined by a **stained fluid**. Blue matches fresh fragrances, shades of pink match floral fragrances and orange fruity fragrance creations.

With our **AQUA COLOR 2-phase recipe**, only the upper part is stained, thereby creating a floating effect.  
A real eye-catcher!

Room Fragrance  
with Sticks

**MANTZ**  
AIRMOTIONS

### BROWN GLASS WITH A DECORATIVE LABEL

white, full-surface printed foil

### BROWN GLASS WITH A DECORATIVE LABEL

white, full-surface printed foil

Room fragrances in brown **glass flacons** are a current trend and they are especially suitable for the **pharmacy look** or the loft style. The product especially comes into its own when combined with a decorative label and a decorative black cap. When designing a concept with **essential oils**, a decorative cap can be dispensed with in order to present the 'natural raw state' of the product.

Room Fragrance  
with Sticks

**MANTZ**  
AIRMOTIONS

### REEDSTIX

Sticks made of rattan

### FIBERSTIX

Sticks made of  
artificial paper

Our **sticks portfolio** not only includes the classical rattan sticks but also fibre ones. They both have their strengths: while the popular **REEDSTIX** stand for a natural look, the **FIBERSTIX** earn points with their unchanging properties and constant fragrance performance. Both versions can be coloured.

Room Fragrance  
with Sticks

**MANTZ**  
AIRMOTIONS

The new **PAPERSTIX** is a new addition to the sticks portfolio from MANTZ airmotions. The unchanging properties of the sticks ensure a consistent quality and a resulting uniform use as a result. Fewer sticks are also required when compared with the rattan version for example. A special winding process ensures that the paper sticks do not swell when they come into contact with fluids.

The paper sticks are made using renewable resources. They are biologically degradable and come from controlled forestry. By manufacturing them in Germany, we are able to keep the CO<sub>2</sub>-emission low as a result of short procurement routes.

**SID**

Plastic decorative cap

**PIT**

Plastic decorative cap

**IBO**

Plastic decorative cap

**JOE**

Plastic decorative cap

**ROB**

Plastic decorative cap  
with sealing ring

Our **decorative caps portfolio** comes in an attractive selection of forms, colours, and materials. When designing room fragrances, we always attach great importance to a harmonious interplay between the flacon, the decorative cap and the scented sticks.

The plastic decorative caps can also be **individually coloured** in keeping with the room fragrance concept and the fragrance variants upon request.

Decorative caps  
for room fragrance

**MANTZ**  
AIRMOTIONS

Our **wooden decorative caps provide a natural look** and especially match the room fragrance concepts with essential oils. The small metallic ring prevents the wood from making direct contact with the aromatic substance, this ensuring that no discolouration taking place. The wooden caps can also be coloured black or white so that they match the room fragrance concept.

**CONY**  
Wooden decorative  
cap, conical

**ILKO**

decorative cap,  
cylindrical

Decorative caps  
for room fragrance

We have expanded our portfolio with the **SLIM** decorative cap, a **material-reduced variant**. Pure PP-Virgin-material We have hereby used pure PP-Virgin-material, that has enabled us to gain the best colour results and a fine structure.

This decorative cap is made of pure PP-Virgin-material.  
By procuring them in Germany, we are able to keep the CO<sub>2</sub>-emission low as a result of short procurement routes.  
Both the decorative cap and the sealing ring are 100% recyclable.

**SLIM**

**ISA**

decorative cap,  
made of pure  
PP-Virgin-material

Decorative caps  
for room fragrance

# room & textiles

The **room scent in the glass flacon** with its decorative **wooden cap** can be very easily combined with the room fragrance. Whereas the room fragrance with its sticks permanently releases its fragrance into the room atmosphere, the room scent can be used to emphasise fragrance features without two different fragrances getting into each others way.

The recipe ensures a **finest distribution** and **not leave any traces on textiles**.

For an even more intensive well-being atmosphere in the home.

**LILLY**  
Room Fragrance

# Tipp

Captivate your customers with a **gift set** comprising a premium scented sachet and a room scent.

### MOROCCAN AFTERNOON

Small cloth sachet  
with a taler

### MOROCCAN MIDNIGHT

Small cloth sachet  
with a tassel

### FEATHERS

Small cloth sachet  
with a taler

### RHOMBUS

Small cloth sachet  
with a tassel

### MOROCCAN MORNING

Small cloth sachet  
with heart

### MOROCCAN EVENING

Small cloth sachet  
with a tassel

Our **premium scented** sachets combine the emotional aroma experience with a high-quality look.

A scented sachet that is made of a non-woven material, filled with a granulate that has scent added to it before being placed in a small decorative sachet.

We produce our scented sachets that are made of a non-woven material at our site in Solingen, Germany so that we can keep the CO<sub>2</sub>-emission low as a result of short procurement routes.

# moments of well-being

Consciously taking time out from everyday life and relaxing in a comfortable atmosphere of well-being:

The **aroma pad with warmer is the perfect companion for relaxing moments at home**. A short time out is turned into a short holiday simply by activating the fragrance on the warmer. A choice can be made between various fragrances, in keeping with your mood.

The **AROMA PAD** from MANTZ airmotions is a fragrance fibre that has been especially developed for use on a warmer. The **colour of the aroma pad can be customised in keeping with the fragrance**. The fragrance develops directly after it has been activated on the warmer and remains for up to 4 hours (the burning period of a standard tea light).

Its use can be interrupted at any time and be continued with later. The fragrance can be changed without difficulty: the aroma pad **does not get hot and does not leave any residues** (as is the case with oil or wax).

## AROMAPAD

Fragrance fibre for warmer

By manufacturing in Germany, we are able to keep the CO<sub>2</sub>-emission low as a result of short transport routes.

Aroma pad

### **WOODY BLACK**

Wooden warmer with a ceramic bowl

### **WOODY WHITE**

Wooden warmer with a ceramic bowl

The **noble wooden warmers with a ceramic bowl** are stylish eye-catchers for all feel-good spaces. Choose between **WOODY BLACK** and **WOODY WHITE**.

The mood light produced by the candle makes a positive contribution to the relaxing atmosphere.

We have developed these warmers taking the optimal clearance between the flame and the ceramic bowl into account.

Aroma pad  
with Warmer

**MANTZ**  
AIRMOTIONS

**FLOWER**

Ceramic warmer

**LEAF**

Ceramic warmer

The white ceramic warmers **LEAF** and **FLOWER** use playful lighting effects to place the candlelight at centre stage and emit heavenly room fragrances at the same time.

We have developed these warmers taking the optimal clearance between the flame and the ceramic bowl into account.

Aroma pad  
with Warmer

**MANTZ**  
AIRMOTIONS

The aroma pad with warmer is also very suitable for **outdoor use**. The play of light creates a cosy atmosphere on the terrace, the balcony, or in the garden.

The decorative warmer also provides protection against disturbing insects when combined with a pleasant **citronella fragrance**.

Aroma pad  
with Citronella

# Air Fresheners for the Household

We supply air fresheners for special use in the household, car, etc.. Small trouble shooters with a major effect at home and when on the road.

**MANTZ**  
AIRMOTIONS

The **decorative scented** companion for wardrobes, chests of drawers, luggage, etc..

The scented sachets from MANTZ airmotions contain **high-quality fragrances**.

This enables the fresh fragrance of washed laundry to last longer.

The scented sachet is **placed with the laundry or hung up using the short decorative ribbon**.

The scented sachets can also be used in shoe cabinets, bags, drawers, and cars. The non-woven material can **be printed with a multi-coloured pattern**.

### FLOWER DAYS

Non-woven scented sachets

The short decorative ribbon can also be made of recycled material (100% PCR) upon request. The quality and look leave nothing to be desired. Convince yourself!

We produce our scented sachets that are made of a non-woven material at our site in Solingen, Germany so that we can keep the CO<sub>2</sub>-emission low as a result of short procurement routes.

We produce our glass flacons with wick at our site in the EU. We keep the CO<sub>2</sub>-emission low due to the short procurement routes. All of the decorative caps can also be manufactured with a share of recycled material (PCR).

### OSLO

Glass flacon  
with wick, 75 ml

### ORLANDO

Glass flacon with wick,  
75 ml (the cap is made  
of the PCR material "ivory"  
to 95%)

Easy to handle, consistent fragrance development.  
The air freshener with wick has been a tried and trusted product in the MANTZ airmotions room freshener portfolio for many years.  
Its popularity is not only due to its **exceptionally good fragrance performance**, however. This functional air freshener can be **enhanced in decorative terms** with a coloured decorative cap and stained fluid, in addition to it being possible to adapt it to the various fragrance variants.  
The **simple flacon designs** has proven their worth **for a wide target group**.

The **Kühlschrank-Frisch** for refrigerators is fragrance-free and acts as an effective odour neutraliser.

#### WAVE

Mini air freshener,  
available in various  
colours

The household conceals a large number of places where bad odours can come from. They impair the comfort and feeling of well-being in addition to visitors also finding them unpleasant.

Our **WAVE** mini air freshener is the solution to such problems: it **eliminates bad odours** fast and provides a pleasant room air.

The **fragrances have been individually** created and selected **for each area of use** (waste bin, refrigerator, wardrobe, ...) so that the air fresheners can combat bad odours in a targeted and efficient manner.

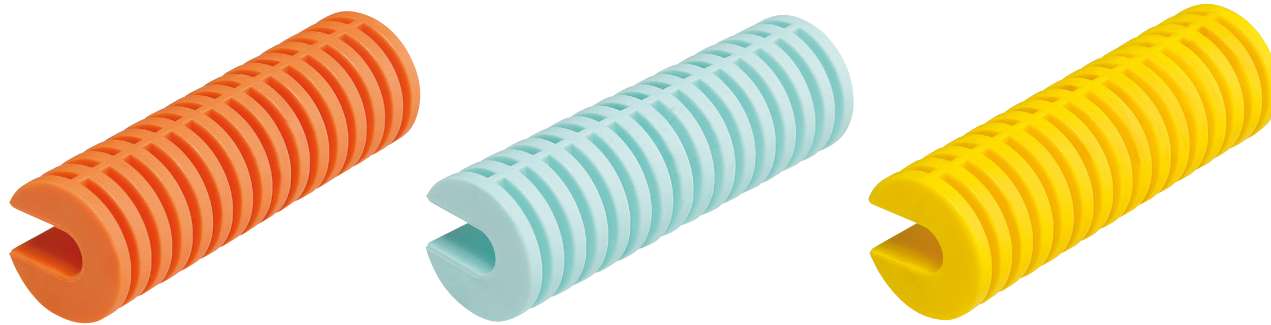

**MANTZ**  
AIRMOTIONS

Mini Air Freshener  
with Pulp

The dishwasher deodorants from MANTZ airmotions actively and **reliably counteract unpleasant odours** in the dishwasher. Our technologies **also release the fragrance in a dry state** so that they **also work between the dishwashing cycles**. Contrary to liquid applications, our dishwasher deodorants do not come into direct contact with the crockery. This minimises the scent adhesion.

Our **RAINBOW** fresh stick can be attached to any number of positions on the dishwasher basket. It **saves space** and does not come into contact with the crockery.

#### RAINBOW

Fresh stick

We produce our dishwasher deodorants at our site in Solingen, Germany so that we can keep the CO<sub>2</sub>-emission low as a result of short procurement routes.

### **LIME**

Dishwashing lemon

We produce our dishwasher deodorants at our site in Solingen, Germany so that we can keep the CO<sub>2</sub>-emission low as a result of short procurement routes.

### **DIAMOND**

Dishwashing crystal

The **LIME** dishwashing lemon and the **DIAMOND** dishwashing crystal are suspended from the upper wire basket using the hook.

For a long-lasting freshness in the dishwasher.

### PEARLS

Granules

Our vacuum cleaner deodorants are **effective against the typical dirt odours** from the vacuum cleaner. They even effectively combat pet odours.

The vacuum cleaner deodorants are easy to use: simply place the granulate direct in the vacuum cleaner bag or vacuum it off the floor.

The pleasant fragrance spreads around the home when vacuum cleaning.

Glasses Cleaning Spray

# Pet

The mini air freshener is also suitable for the **combatting of unpleasant bad pet odours**. The holder can be easily attached to the cat's litter tray. Bad odours are effectively combatted by a **pleasant fragrance** or **odour neutraliser** as an alternative.

The holder prevents the pet from coming into contact with the scented pulp pad.

The car deodorant with pulp lamellae is the solution **for bad odours in the car** for all car drivers who have a dog as front seat passenger. The holder is easy to use and discretely blends in with the design of the car instrument panel. The air circulates through the air freshener, past the pulp pad and then emits a pleasant fragrance.
